

Circular Polarized Antenna 3300 - 3900 MHz , 12 dBi

Features:

- High Performance
- Small Size, Rugged, Lightweight
- RH Circular Polarized
- Adjustable Tilt Stainless Steel Bracket

Application:

- Indoor & Outdoor Application
- WLAN Clients and Access Points Client
- WiMAX application
- IEEE 802.16e Applications

Part Number : AT-3400

Electrical Specification

Frequency - MHz	3300 - 3900
Gain	11 -13 dBi
- 3 dB Beam Width	40°
Impedance	50 Ohm
RF Input Power	10 Watts
VSWR	1.5:1 Max; <1.3:1 Type
RF Connector	Type TNC female

Mechanical Specification

Weight	0.5 lbs
Length	6.50"
Enclosure	UV Stable ABS
Mounting	Mast mounted w/U-Bolts & Brackets
Polarization	Right-Hand Circular
Operating Temperature	- 40 C TO 85 C (-40 F to 185 F)
